LETTER OF CONDOLONCE

The SDRP Coordinator is to ensure that next of kin have received relevant information and have had an opportunity to act on it. For each instance the SDRP Coordinator will send a letter of condolence signed by the relevant senior staff member. At the same time, the SDRP Coordinator may send other information based on communications with the next of kin (if any). In such cases the SDRP Coordinator will seek the information from the relevant units. Information may be sent as a single “pack” or in smaller mailings if the communications with the next of kin indicate that a staged information process is more appropriate. Families will often “set the pace” and guide what amount of information they want and when.

- Letter/s of condolence (double checked for wording, accuracy of student name and details, and personal signature from the Dean. If the Dean is unavailable, the most senior academic officer available in the School is required).
- List of contents attached to the condolence letter (if any) and what will happen / indicative timeframe.
- Information about posthumous award **only if** the student is eligible as per policy and only if the recommendation for posthumous award is underway by the Deputy Dean and Chair of the School Assessment Committee.
- Pre-paid return envelope
- Information on refunds of fees and other charges refunds and how to apply
- If death accidental – insurance information
- For International students - liaison with government departments and consulates should be through the Associate Pro Vice-Chancellor (International). The Associate Pro Vice-Chancellor (International) should liaise with the relevant SDRP Coordinator.
