(6) The collection consists of a diverse range of artworks in a variety of media, including paintings, sculpture, ceramics, photographs and works on paper by 20th century Australian artists, primarily from the 1960s to the present. The collection also consists of works by local artists from the Hawkesbury, Macarthur and Nepean regions, as well as works by former and current staff and students of the University. There is also a small selection of works by international artists who participated in artist residencies at the University.

Section 3 - Policy Statement

(8) The University will acquire paintings, original prints, drawings, photographs, convergent digital technologies, sculptures and ceramics of the highest professional standard, and of international, national and regional significance, with a particular focus on collecting the work of artists with a proven record of practice and development of their art form and who are represented in public collections, or who have received recognition through awards or prizes.

(9) The University will acquire artworks that fill in gaps and build upon the strengths within the existing collection, including development of a well-balanced representation of the work of individual artists to:

- b. collect and represent the work of international contemporary artists, that reflects international collaborations and partnerships of the University.
